

2008 PROGRAM IN PROSTATE CANCER RESEARCH - DISCUSSION MEETINGS - 5:00-6:00 P.M. (1st Thursday)

PPCR DISCUSSION MEETINGS	Group/Topic	LOCATION, Res. #45113
January 3, 2008 (Video-Conference)	"Effect of medical castration on circulating lymphocyte constitution" Jennifer Wu, PhD, Assistant Professor, UW Department of Medicine	FHCRC Weintraub Building, Pelton Auditorium
February 7, 2008 (Video-Conference)	MEETING CANCELLED	
March 6, 2008 (Video-Conference)	Presentations of three newly funded SPOR Pilot Projects: "Isotopically Heavy Protein Standards to Calculate Absolute Protein Concentration" Daniel Martin, MD, Institute for Systems Biology "Hormonal and Molecular Effects of Exogenous Dihydrotestosterone on the Prostate" Stephanie Page, MD, PhD, University of Washington "Targeted Alpha Therapy for Treatment of Metastatic Prostate Cancer in Bone" Scott Wilbur, PhD, University of Washington	FHCRC Thomas Building, Sze East, D1-084
April 3, 2008 (Video-Conference)	Presentation of two newly funded SPOR Pilot Projects: "Prostate Cancer Stem Cells" Norman Greenberg, PhD, FHCRC "Inhibition of Angiopoietin-2 in CaP Bone and Soft Tissue Tumors in SCID Mice" Colm Morrissey, PhD, University of Washington ALSO: "The Institute of Translational Health Sciences: A Brief Introduction to the CTSA" Cathryn Booth-LaForce, PhD, FAPS, RYT, UW CHDD	FHCRC Thomas Building, Sze East, D1-084
May 1, 2008 (Video-Conference)	MEETING CANCELLED (scheduled special speaker seminar 5/29/08)	
June 5, 2008 (Video-Conference)	"Rationale and studies that are ongoing for neoadjuvant and adjuvant therapy to treat micrometastatic prostate cancer in patients with localized disease" Bruce Montgomery, MD, Associate Professor, Medicine/Division of Oncology, UW	FHCRC Thomas Building, Sze East, D1-084
July 3, 2008 (Video-Conference)	MEETING CANCELLED	
August 7, 2008 (Video-Conference)	"Androgen receptor is suppressor and proliferator in prostate cancer" Chawnshang Chang, PhD, George Hoyt Whipple Professor of Pathology and Laboratory Medicine, Professor of Urology and Radiation Oncology, University of Rochester Medical Center	FHCRC Thomas Building, Sze East, D1-084
September 4, 2008 (Video-Conference)	6-month follow-up reports of two SPOR-funded Pilot Projects: "Isotopically Heavy Protein Standards to Calculate Absolute Protein Concentration" Daniel Martin, MD, Institute for Systems Biology "Targeted Alpha Therapy for Treatment of Metastatic Prostate Cancer in Bone" Scott Wilbur, PhD, University of Washington Also: "Tissue androgen deprivation: update of preclinical results" Bruce Montgomery, MD, University of Washington	FHCRC Thomas Building, Sze East, D1-084
October 2, 2008 (Video-Conference)	6-month follow-up reports of three SPOR-funded Pilot Projects: "Prostate Cancer Stem Cells" Renee Chmelar, PhD, FHCRC "Inhibition of Angiopoietin-2 in CaP Bone and Soft Tissue Tumors in SCID Mice" Colm Morrissey, PhD, University of Washington "Hormonal and Molecular Effects of Exogenous Dihydrotestosterone on the Prostate" Stephanie Page, MD, PhD, University of Washington	FHCRC Thomas Building, Sze East, D1-084
November 6, 2008 (Video-Conference)	"Bone health for men with prostate cancer" Evan Yu, MD, General Oncology & Hematology, SCCA	FHCRC Thomas Building, Sze East, D1-084
December 4, 2008 (Video-Conference)	"Biomarkers, Genomics, and Gene Expression" (Pete Nelson)	FHCRC Thomas Building, Sze East, D1-084
