
McIntosh OS X Users

How to Connect to Fred Using SMB

1. Connect to Fred using **GO > Connect to Server >** then enter `smb://fred/home`
2. **Log-in using your HutchNet ID and password**

(If you just type fred it will fail because the default protocol is Appletalk which no longer works for connecting to fred.)

Contact Support Information

You may contact Research Computing Support at 206-667-6719 or rcs@fhcrc.org if you require additional assistance.
